The Fet and the Lean.

There is a theory abroad that fat men are commonly joi ler, and of a happier temperaturat, than lean ones. We fancy ourselves that a corpulent habit denotes much presperity, a literal disposition, an easy, good natured enjoyment of all the good things of life, with the joints well oiled, the angles and the wrinkles smoothed out and the friction reduced to s lowest terms. On the other hand we associate leapness with a sharp, angular disposition a frigid temperament and a besetting tendency to growl at whatever goes wrong But these fine theories are offentimes knocked in the head by facts. ome of the merriest, happlest sunniest people we ever met have been of the traheadquarters at camp lates, a visitor in litionary "thin faced, lantern lawed" variety, while we have sometimes encoun tered persons whose liberal adipose pro-portions of body were accompanied with tion for his regiment, along with his own.
